TWO CARGO BOATS COMPLETED IN KWANTUNG

On 23 November 1948, the Kwantung Shipbuilding Company completed construction of two large cargo boats, the Hai Ning and the Hai An. Since this work was first undertaken on 22 June 1948, the completion of these two boats within a 5-month period was indeed remarkable. During the initial stage of this undertaking, moreover, the company faced a grave shortage of skilled workers. As a result, it was forced to train many men in different lines of work during construction of these boats.
